

York County Transportation Authority Headquarters

York, Pennsylvania. 1993

Partners: Abrams & Cherwony, Transportation Facility Planning Consultants

Adaptive reuse of a five bay maintenance garage and dependencies as new headquarters office for a public transportation authority, publicly accessible board room, bus maintenance facility. New, enclosed bus-wash added. Interior spaces feature 15' ceilings (the client's prior office space averaged 7'6" in height), natural illumination throughout and exterior views from all interior spaces. Mechanical systems are organized into horizontal chases to allow maximum height in maintenance and office bays. Arts program throughout building features presentation and interpretation of original trolley and bus company's archival material. AIA award winning design.
