

Harrison Studios

Harrison, New Jersey. 1998

Role: Principal in Charge and Design Lead

Partners: ARUP Engineering, Turner Construction Management Fees: Withheld by client request

Adaptive reuse of historic house, carriage house and addition of a connective element. Client required real estate valuation and comparative analysis between this and other sites. Historic main-floor ceremonial rooms were restored for use as ceremonial meeting rooms. Technologically demanding program elements are located in new construction. New construction is scaled and proportioned to minimize visual presence from roads in surrounding residential neighborhood.
