Coordinated community center staff and board with DBHD Block Grant Funding in the development of the historic "Webster Schoolhouse and Annex" located in Allison Hill district and built in 1889 and 1908. Projects included structural repairs, masonry restoration, roof restoration, new front doors an entry refurbishment, and new electrical service and distribution. Provided programming design support and development of a masterplan. Through project development, worked with the Center and community members on alternative funding opportunities, including an Arts programming and a mural restoration project.
